

**SPECTRuM is a study to collect data from different people around the U.S. The goal is to help make care better for everyone with cystic fibrosis-related diabetes (CFRD).**

**SPECTRuM is based on these core values:**

### **Open to all**

We welcome all who are eligible to join! No health insurance is required.

### **Diversity**

We believe that diversity can lead to change that helps everyone.

### **Better Together**

We are all working towards the same goal.

### **Honest**

We will always tell you how your data might be used.

### **Keeping you updated**

We will periodically update study findings and progress on the study website.

### **Keeping data secure**

We are storing data in a way that meets trusted safety standards.
