

SPECTRuM

Diversity Drives Discovery

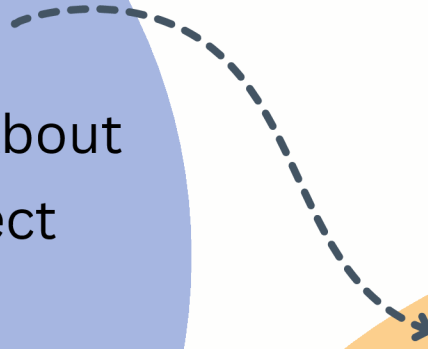

Studying the health effects of cystic fibrosis-related diabetes (CFRD)

ABOUT THE STUDY

The goal is to understand more about health problems that may affect people with CFRD.

CF community members and parents of kids with CF have helped design this study.

WHO CAN JOIN

Everyone who is eligible can join no matter their race or social background.

- Have had CFRD for at least 5 years.
- Be 12 years of age or older.
- Not be pregnant.
- Have not had a transplant.

WHAT TO EXPECT FOR YOU

- Meet the study team and do tasks similar to your usual CFRD care.
- Complete questionnaires and additional tests at the SPECTRuM Research Site or in your home.
